ANIMAL HEALTH®

Antibiotics

AMPICILLIN

Injectable, broad-spectrum penicillin which has bactericidal activity against a wide range of common bacteria. Contains 25 g ampicillin activity.

20841	25 g
-------	------

BAYTRIL® 100

Injectable solution is indicated for the treatment of BRD in beef and non-lactating dairy cattle and for treatment and control of SRD in swine.

11574	100 mL
11575	250 mL
13354	500 mL

CEFENIL® RTU

Injectable for treating BRD associated with Mannheimia haemolytica, Pasteurella multocida and Histophilus somni, footrot and metritis and control of SRD caused in association with Actinobacillus (Haemophilus) pleuropneumoniae, Pasteurella multocida, Salmonella choleraesuis and Strep suis in swine.

24390	100 mL
24392	250 mL

CEFTIFLEX®

Broad-spectrum cephalosporin antibiotic active against bacteria. Use CeftiFlex to treat cattle, swine, sheep, goats, horses, dogs, day-old chicks and day-old turkey poults.

13160	4 g
-------	-----

DURAMYCIN 72-200

Sterile, ready-to-use solution contains broad-spectrum antibiotic oxytetracycline. Effective against a wide range of bacteria for beef cattle, lactating dairy cattle, calves (including pre-ruminating veal calves) and swine. Treats respiratory diseases, pinkeye, scours and other bacterial infections.

21638	100 mL
13142	250 mL
31259	500 mL

ENROFLOX® 100

Injectable solution for treating BRD in beef and non-lactating dairy cattle and for treatment and controlling SRD in swine.

11513	100 mL
11514	250 mL
20943	500 mL

INCREXXA™

Injectable solution for the treatment of BRD associated with Mannheimia haemolytica, Pasteurella multocida, Histophilus somni and Mycoplasma bovis; and control of respiratory disease in cattle at high risk of developing BRD.

26269	100 mL
26270	250 mL
26271	500 mL

MICOTIL® 300 MG

Injectable for treating BRD associated with Mannheimia haemolytica, Pasteurella multocida and Histophilus somni and for the control of respiratory disease in cattle at high risk of developing BRD associated with M. haemolytica.

13666	250 mL
-------	--------

NEOMED® 325 SOLUBLE POWDER

Antibacterial water soluble powder that controls colibacillosis (bacterial enteritis) caused by E. coli in cattle (excluding veal calves), swine, sheep, goats and turkeys.

14841	3.5 oz
14835	7 oz
13363	50 lbs

NORFENICOL®

Broad-spectrum, fast-acting injectable antibiotic containing florfenicol. FDA-approved for beef and non-lactating dairy cattle at high risk of BRD.

12859	100 mL
12930	250 mL
12955	500 mL

NOROMYCIN® 300 LA

Versatile, broad-spectrum antibiotic across a wide range of diseases. Well-tolerated formulation, particularly when administered SQ in the neck area.

23151	100 mL
23152	250 mL
18217	500 mL

Product on backorder?

Please call Armor Animal Health for current availability. Scan this QR code or check out the back of this catalog.

**NUFLOR**

Injectable antibiotic for treatment of BRD (with Mannheimia haemolytica, Pasteurella multocida and Histophilus somni), bovine interdigital phlegmon (with Fusobacterium necrophorum and Bacteroides melaninogenicus) and footrot in cattle. Begins killing within 30 minutes and eliminates 99.9% of bacteria within 24 hrs.

17291	100 mL
17292	250 mL
17293	500 mL

OXYTET

Broad-spectrum antibiotic for use in beef cattle, beef calves, non-lactating dairy cattle and dairy calves. FDA-approved.

13106	500 mL
-------	--------

**PENNCHLOR 64®**

Water-soluble broad-spectrum antibacterial powder of chlortetracycline HCl to treat diseases in swine, cattle and poultry. Free-flowing soluble powder is readily absorbed.

14643	25.6 oz
-------	---------

**RESFLOR GOLD®**

Fights all four major BRD pathogens, including Mannheimia haemolytica, Pasteurella multocida, Histophilus somni and Mycoplasma bovis. Quickly reduces fever associated with BRD, a critical component of treatment. Improvement in as little as 6 hrs.

13166	100 mL
17335	250 mL
17336	500 mL

**SPECTAM® SCOUR HALT™**

For use in pigs under 4 weeks of age for treatment and control of porcine enteric colibacillosis (scours) caused by E. coli susceptible to spectinomycin.

14847	1000 mL
-------	---------

**SULFADIMETHOXINE**

Concentrated (12.5%), broad-spectrum antibacterial solution to control a variety of diseases in chickens, turkeys and cattle. Also treats coccidiosis, fowl cholera and infectious coryza in chickens and fowl cholera in turkeys.

12923	1 gal
-------	-------

**SULFAMED 40% INJECTABLE**

Sulfadimethoxine injection 40% is a broad-spectrum antibacterial for shipping fever complex, bacterial pneumonia, foot rot and calf diphtheria in cattle.

13131	250 mL
-------	--------

SUSTAIN III®

For beef cattle and non-lactating dairy cattle to treat diseases when caused by: bacterial pneumonia, BRD complex, bacterial scours, foot rot, calf diphtheria and/or acute metritis. Causes 72 hrs of sustained antibacterial activity to beat infections early.

13123	CALF BOLUS	25 ct
13124	CALF BOLUS	50 ct
13109	COW BOLUS	50 ct
14834	COW BOLUS	100 ct

**TET-SOL™ 324**

Soluble powder for the control and treatment of bacterial enteritis/scours (E. coli) and bacterial pneumonia/shipping fever complex associated with Pasteurella spp., Actinobacillus pleuropneumoniae (Haemophilus spp.) and Klebsiella spp. in cattle. Can also be used in chickens, turkeys and swine.

13125	5 lbs
-------	-------

**TYLAN® 200**

Reduces the incidence of liver abscesses caused by Trueperella pyogenes and Fusobacterium necrophorum in beef cattle (steers and heifers) fed in confinement for slaughter by 73%.

11962	250 mL
11963	500 mL

**ZUPREVO®**

Macrolide for the treatment of BRD in cattle. Reaches peak plasma levels just 45 minutes after administration. Lasts 28 days in the lungs and 21 days in bronchial fluid.

17454	100 mL
17455	250 mL

Effective June 2023, medically important drugs will change from over-the-counter (OTC) to prescription (RX). For more information, scan the QR code or visit

ArmorAnimalHealth.com.

Biosecurity

CHLORHEXIDINE DIACETATE

Antiseptic and antimicrobial disinfectant which provides activity against a wide range of micro-organisms, especially against those commonly present on the skin, such as bacteria, fungi, ringworm and yeast in cats, dogs and horses. Non-toxic, non-irritating agent.

11521 1 gal

CHLORHEXIDINE SOLUTION

Antiseptic and antimicrobial disinfectant which provides activity against a wide range of micro-organisms, especially against those commonly present on the skin, such as bacteria, fungi, ringworm and yeast in cats, dogs and horses. Non-toxic, non-irritating agent.

11520 1 gal

EFFERCEPT® SG TABLETS

Teat dip tablets for powerful killing and cleaning. Can be used as pre- and post-teat dip, spray, foam or scrub.

20049	20 ct	17099	220 ct
13288	50 ct	13291	550 ct
13292	110 ct	12026	1540 ct

EFFERSAN™

Pre-measured tablets for precise deodorizing, sanitizing and disinfecting concentrations. Less corrosive, less toxic, neutral pH formula is tough on germs and odors. Gentle, low-irritating solution thoroughly sterilizes and cleans surfaces. No synthetic fragrances or dyes and will not leave dangerous residues.

13287	24 ct
13289	100 ct

Calf Health

BLUE RIBBON CALF CARE™ ELECTROLYTES

Supplemental source of electrolytes, nutrients and special direct-fed microbials for sick/scouring calves, transported calves and during periods of stress.

12577	5 lbs	12578	4 oz
12575	25 lbs	12576	100 L

HYDRAFEED™

Temporary milk substitute that quickly restores essential nutrients, electrolytes, pH balance, energy and nitrogen for sick and scouring calves or pigs. Contains natural lactose, providing twice the energy of glucose-based products. Mixes easily with a highly palatable vanilla flavor.

13082 3.53 oz - 16 ct

LIFELINE NOURISH™ DAIRY & BEEF

The only colostrum replacer formulated with 25% added fat plus carbohydrates for extra energy. Serum-based formulation delivers 100 g of globulin protein plus vitamins and minerals for healthy nutrition.

21603 1 lb

LIFELINE PROTECT™

Formulated with added fat and carbohydrates that provide the burst of energy beef calves born in harsh conditions need to stand and suckle on their own. Provides 50 g of globulin protein, plus essential nutrients.

13362 1 lb

LIFELINE RESCUE™ REPLACER

Serum-based formulation delivers 150 g of globulin protein plus a researched blend of fat, carbohydrates, vitamins and minerals.

14645 1.2 lbs

Armor's Choice Products.

**ACTIVATED CLAY GEL (KLATOX)**

Oral gel used on calves, foals, sheep, goats, dogs and cats to ease stomach discomfort and treat digestive disorders. Gel contains attapulgit clay and kaolin active ingredients.

14705 300 mL

**CMPK GEL PLUS**

An easy-to-administer nutritional supplement containing calcium, phosphorus, magnesium and potassium for dairy cattle during calving. Formulation will not run out of the cow's mouth and has neutral pH. Contains citric acid to aid in the absorption of ingredients.

14704 300 mg

**COW OCTANE BAG**

Improves fluid intake. Dextrose helps increase alertness. Replenishes electrolytes for cattle under stress. Gets yeast into the rumen during stressful periods. Formulated to give fresh and stressed cows quick energy and increased appetite. Water soluble and palatable in feed.

20796 25 lbs

**DEXALYTE**

For use in conditions associated with fluid and electrolyte loss, such as dehydration, shock, vomiting and diarrhea, particularly when an immediate source of energy is needed. Indicated for use in beef and dairy cattle, horses, sheep and swine.

17098 1000 mL

**ENHANCE DRY COW TEAT SEALANT**

Designed for use during dry and pre-calving period. Aids in prevention of mastitis infections caused by bacterial migration into the teat canal. ENHANCE DRY is triclosan free.

28642 32 oz

**KETO "PLUS" ORAL GEL**

Nutritional supplement providing energy and select vitamins for dairy cattle. Contains 15 g of niacin to reduce the incidence of ketosis. Promotes rapid absorption of propylene glycol for instant energy.

13134 300 mL

**MINERAL OIL**

Used as an intestinal lubricant. Aids in treating constipation and helps improve intestinal efficiency. For use with horses, cattle, sheep, swine, dogs and cats.

13119 1 gal

**OXYTOCIN**

Sterile aqueous solution of highly purified oxytocic principle to accelerate normal parturition in sows, ewes, horses and cows; milk letdown in cows and sows; postpartum evacuation of uterine debris; post-operative contraction of the uterus; and control of uterine hemorrhage.

13224 100 mL

**PROPYLENE GLYCOL FOOD GRADE**

Aids in the prevention and treatment of acetonemia (ketosis) in dairy cattle. Food grade propylene is safe for drinking and non-toxic. May be put on feed.

11519 1 gal

**ULTRA CALC® PLUS BOLUS**

Oral mineral supplement for freshening dairy cows to prevent milk fever. Contains four different sources of calcium for quick and extended availability. Bolus contains phosphorus, magnesium and Vitamin D3 to support calcium up-take. Coconut coating eases oral administration.

20306 6 ct

Calving Supplies

**OB LUBE ALL PURPOSE**

Can be used as a lubricant for operator's hands and/or arms in obstetrical work, vaginal examinations and rectal examinations. May be used as a lubricant for catheters and stomach tubes.

12724 1 gal

**IDEAL® BREEDER-SLEEVE®**

Affordable, quality shoulder length sleeves, packaged in a convenient dispenser box. Made from a blended polymer film for optimum strength.

16361 100 ct

**OB MAXI-SLEEVE**

Protection and sensitivity all in one glove. Multi-purpose. Blended polymer film creates optimum strength to sensitivity ratio. Wear while performing herd checks, assisting with obstetrics and artificial insemination.

17296 100 ct

With nearly 6,500 stocked products, our Choice Product selection is only a snapshot of what Armor Animal Health has to offer. Visit ArmorAnimalHealth.com to view all products available.

Dewormer

AMPROMED™ FOR CALVES ORAL SOLUTION

Treats and prevents coccidiosis caused by *Eimeria bovis* and *E. zuernii* in beef and dairy calves by disrupting the coccidia life cycle. One gallon treats 1,600 gallons of drinking water based on a 21-day prevention regimen.

20940 1 gal

CORID® 9.6% ORAL SOLUTION

Treats and prevents bovine coccidiosis caused by *Eimeria bovis* and *E. zuernii* in calves. Mix daily with fresh drinking water. Offer as a 5-day treatment or a 21-day prevention treatment.

12905 16 oz
12881 1 gal

CORID® POWDER

Treats and prevents bovine coccidiosis caused by *Eimeria bovis* and *E. zuernii* in calves. Water soluble powder can be administered in drinking water or as a drench.

12882 10 oz

SAFE-GUARD® ORAL SUSPENSION

Oral drench removes and controls lungworms, stomach worms (adults and fourth stage larvae), brown stomach worms, intestinal worms (adults and fourth stage larvae), hookworm, thread-necked intestinal worm, small intestinal worms, bankrupt worm and nodular worms.

16004 10 L
11403 1000 mL

SAFE-GUARD® SUSPENSION 10%

Use in beef and dairy cattle on lungworm; stomach worm; brown stomach worm; barberpole worm; small stomach worm; intestinal worms; hookworm; thread-necked intestinal worm; small intestinal worm; bankrupt worm; and nodular worm. Can be used in goats for stomach worms.

11418 10 gal

CYDECTIN® INJECTABLE

Ready-to-use, sterile solution containing 1% moxidectin. Specially formulated to allow moxidectin to be absorbed from injection site and distributed internally to areas affected by endo- and/or ectoparasitism.

11858 500 mL

IVERMECTIN 1% INJECTABLE

Parasiticide for the treatment and control of parasites of cattle and swine, including gastrointestinal roundworms, lungworms, grubs, sucking lice and mange mites in cattle and gastrointestinal roundworms, lungworms, lice and mange mites in swine.

13305	50 mL	13095	2.5 L
20942	500 mL	21645	250 mL
13304	1 L		

NOROMECTIN® 1% INJECTABLE

Ivermectin-based parasiticide for the effective treatment of a wide range of internal and external parasites of beef cattle, dairy cattle of non-breeding age and swine.

32018 500 mL

CYDECTIN® POUR-ON

Contains moxidectin, which controls 33 parasite species and stages while remaining dung beetle and earthworm friendly. Has a weatherproof formula, allowing for flexibility to treat without the worry of dewormer washing away.

11841	500 mL	11844	5 L
11858	1 L	11845	10 L
11843	2.5 L		

EPRIZERO® POUR-ON

Treats and controls 39 species and stages of both internal and external parasites with 99% effectiveness.

21564	2.5 L
21565	5 L
21566	20 L

ULTRA SABER™ POUR-ON

Ready-to-use pour-on controls lice and horn flies on beef cattle and calves with one application.

34185	1 gal
34186	900 mL

SAFE-GUARD® CATTLE PELLETS .5%

Alfalfa-based pellets feed and deworm in a single step. Armed with active ingredient fenbendazole, these pellets are effective against worms, stomach worms and intestinal worms in cattle in one feeding.

10756 25 lbs

SAFE-GUARD® PASTE

For beef and dairy cattle, removes and controls lungworms, stomach worms (adults and fourth stage larvae), brown stomach worms, intestinal worms (adults and fourth stage larvae), hookworm, thread-necked intestinal worm, small intestinal worms, bankrupt worm and nodular worms.

11420 290 g

**BIMECTIN® EQUINE PASTE**

Provides effective treatment and control of large strongyles, small strongyles, pinworms, ascarids, hairworms, large-mouth stomach worms, bots, lungworms, intestinal threadworms, summer sores and dermatitis caused by neck threadworm in horses and ponies of all ages. FDA-approved and apple flavored.

30685 **6.08 g**

**DURAMECTIN PASTE**

Provides effective treatment and control of 35 species and stages of worms and bots in horses with a single dose. Convenient, easy-to-use syringe allows for fast, fool-proof application.

21835 **6.08 g**

**EQUIMAX® PASTE**

Protects against all major parasites including tapeworms, bots, small and large strongyles, roundworms, lungworms, pinworms, hairworms, large-mouth stomach worms, threadworms and summer sores. Has apple flavoring and the EZE-GRIP syringe.

14399 **6.42 g**

**IVERMECTIN EQUINE PASTE**

Provides effective control of large strongyles, small strongyles, pinworms, ascarids, hairworms, large-mouth stomach worms, bots, lungworms, intestinal threadworms, summer sores and dermatitis in horses. For oral use with apple flavoring.

30687 **6.08 g**

**PANACUR® SUSPENSION**

Removes and controls lungworms, stomach worms and intestinal worms.

22323 **1000 mL**
22345 **1 gal**

**PANACUR® PASTE**

Controls large strongyles, encysted early third stage (hypobiotic), late third stage and fourth stage cyathostome larvae, small strongyles, pinworms (*Oxyuris equi*), ascarids (*Parascaris equorum*) and arteritis caused by hypobiotic larvae of *Strongylus vulgaris* in horses.

11419 **25 g**

**PYRANTEL PASTE EQUINE WORMER**

For removing and control of mature infections of large strongyles, small strongyles, pinworms and large roundworms in horses and ponies. Easily administered paste-gel has apple flavor. Safe and efficacious, the wormer has a replaceable cap to preserve partial dosages.

21007 **23.6 g**

**SAFE-GUARD® EQUINE PASTE**

Controls large strongyles, encysted early third stage, late third stage and fourth stage cyathostome larvae, small strongyles, pinworms (*Oxyuris equi*), ascarids (*Parascaris equorum*) and arteritis caused by fourth stage larvae of *Strongylus vulgaris* in horses. Apple-cinnamon flavor.

18536 **25 g**

Feed Additives

PENNCHLOR 50® MEAL

Antibacterial premix of chlortetracycline for oral administration in feed or water for swine, cattle, sheep and poultry. Readily absorbed and granular formulation. Combination approvals including: Deccox (cattle), Rumensin (cattle), BioCox (chicken), Coban (chicken), Denagard (swine) and BMD (swine).

12932 50 lbs

REPROMUNE MINERAL IGR

A nutritional supplement containing S-Methoprene insect growth regulator (IGR) for continuous feeding to cattle through the horn fly season.

34235 50 lbs

REPROMUNE MINERAL NO PHOS YCO

Formulated without phosphorus to support the overall health, fertility and optimal reproductive performance of dairy cattle. May be added to diet to provide additional nutrients. Intended to be fed in combination with a balanced ration.

34236 50 L

REPROMUNE MINERAL RUMENSIN R1600

Formulated for beef cattle. Improved conception rates and improved feed efficiency. Rumensin added for prevention and control of coccidiosis.

19505 50 lbs

VIGORTONE® FORAGE PRO®

Self-fed, free-choice protein and mineral supplement designed with an array of complementary protein sources. It includes *Aspergillus oryzae* to stimulate additional rumen fiber digestion and contains a full dose of minerals.

34233 12% 200 L

34222 22% 200 L

34227 28% 200 L

Fluids

27368	CALCIUM GLUCONATE 23%	500 mL	For use in cattle as an aid in treating uncomplicated milk fever.
27369	CMPK INJ*	500 mL	For use in cattle as an aid in treating conditions associated with calcium, magnesium, phosphorus, potassium or glucose deficiencies.
13102	DEXTROSE 50%	500 mL	For use in cattle as a quick source of carbohydrates and an aid in treating uncomplicated primary ketosis.
27370	HYPERTONIC SALINE INJ*	1000 mL	For use in replacement therapy of sodium, chloride and water, which may become depleted in many diseases.
27371	LACTATED RINGERS BOTTLE*	1000 mL	For use as an aid in correcting electrolyte depletion, metabolic acidosis and dehydration of cattle, calves, horses, sheep and swine.
27378	STERILE WATER INJ*	250 mL	For use as a sterile diluent for preparation of injectable solutions.
27403	STERILE WATER INJ*	500 mL	For use as a sterile diluent for preparation of injectable solutions.
27372	STERILE WATER INJ*	1000 mL	For use as a sterile diluent for preparation of injectable solutions.

Grooming

TAILWELL® 2 TRIMMER

Facilitates the tedious work of cutting tail hair in dairy cows. Twice yearly removal of hair allows for optimum hygiene of livestock, milk and milker. No risk of injury to animals and humans.

11381 1 ct

11389 Replacement Blade

TAILWELL® TITANIUM TRIMMER

Heavy duty tail trimmer features a longer cutter life – suitable for tails contaminated with sand. Titanium-nitride (TiN) coating for the cutter set, this super-hard coating prevents early wear and tear that sand causes on the cutters. Trims tails within seconds.

23119 1 ct

23120 Replacement Blade

**3M™ VETRAP™**

High-performance bandaging tape for a broad-spectrum of applications - support, compression and bandage secural. Bandage sticks to itself, but not to hair. Conforms around contours that are difficult to bandage.

**CONTAINED FORMALDEHYDE**

Used in foot baths to significantly reduce the incidence of digital dermatitis and foot rot in cattle.

10784 1 gal

**HOOF WRAP SYRFLEX**

Cohesive bandage designed specifically for bovines. Comes in 4 in sizing and sold in boxes of 100 rolls. Self-adhesive wrap provides consistent, lightweight compression that's breathable, yet durable.

15260	Fluorescent Orange
18091	Hot Pink
16178	Red

**SHUFIX BLACK MAGIC**

Time-saving adhesive can be left alone after 20 seconds, can bear animal's weight after 90 seconds. One year shelf life. Summer version available for warmer conditions. Fast curing polyurethane adhesive glue with guaranteed solid adhesion. No chemical smell during application.

23779	Summer	210 cc
23741	Winter	210 cc

**ADAPTARAP DISSOLVABLE HOOF WRAP**

ADAPTARAP naturally dissolves and is biodegradable. The non-elastic properties significantly reduce the risk of pressure wounds.

27627 5 ft, 3 ct

**ALUSHIELD™ AEROSOL**

Protects wounds while still allowing injury to breathe. Fast and easy-to-use spray application leaves no antibiotic residue. May be applied over ointments or salves helping reduce the risk of infection and can be easily removed with soap and water.

11812 75 g

**IDEAL® PRIMA MARC™ PAINT**

A squeeze of the syringe handle activates the mounted paint can and marks each animal simultaneously with injection. This encourages safe administration practices, improves quality of control efforts and saves costs.

13272	16 oz - Green
13271	16 oz - Pink

**IDEAL® PRIMA® SPRAY-ON GLO**

Colors are durable, stable and reliable in all temperatures. Colors are strong with high luminosity and able to be sprayed with inverted tip.

Implants & Accessories

21245	COMPONENT® E-C W/TYLAN®	20 ds	Initial and terminal implants for steers and heifers. Contains 10 mg estradiol benzoate and 100 mg progesterone.
16210	COMPONENT® TE-200 W/TYLAN®	100 ds	Initial and terminal implants for steers and heifers. Contains 20 mg estradiol and 200 mg trenbolone acetate.
20315	COMPONENT® TE-IH W/TYLAN®	20 ds	Initial and terminal implants for feedlot heifers. Contains 8 mg estradiol and 80 mg trenbolone acetate.
20314	COMPONENT® TE-IS W/TYLAN®	20 ds	Initial and terminal implants for steers. Contains 16 mg estradiol and 80 mg trenbolone acetate.
10748	COMPONENT® IMPLANT APPLICATOR	1 ct	Use with Tylan implants for accurate implantation.
11966	COMPUDOSE™	20 ds	Contains 25.7 mg estradiol. For increased rate of gain in steers and feedlot heifers.
12166	COMPUDOSE™/ENCORE® APPLICATOR	1 ct	Kit contains implant gun, two planter needles and a needle brush. For use with both Compudose and Encore cattle implants.
12165	COMPUDOSE™/ENCORE® NEEDLE	1 ct	Replacement stainless steel needles specifically designed for the Compudose and Encore implant gun for cattle.
11967	ENCORE®	20 ds	For increased rate of weight gain in suckling and pastured growing steers. Contains 43.9 mg estradiol.
17332	RALGRO® IMPLANT	24 ds	Implant can be used in both male and female calves. Contains 36 mg zeranol.
17331	RALGRO® APPLICATOR	1 ct	Ergonomic applicator design, combined with a small implant size, reduces fatigue while accurately administering pellets.
14779	RALGRO® IMPLANT NEEDLE	1 ct	Use with Ralgro gun and Ralgro implants.
17337	REVALOR®-200	10 ds	Contains 20 mg estradiol and 200 mg trenbolone acetate. Slow release delivery system.
11038	REVALOR®-G	10 ds	Slow release delivery system for increased rate of gain. Contains 8 mg estradiol.
15560	REVALOR®-H	10 ds	Increases weight gain and improves feed efficiency through a slow-release delivery system. Contains 14 mg estradiol.
15561	REVALOR®-IH	10 ds	Increases gain at the feedlot in heifers in a slow-release delivery system. Contains 8 mg estradiol and 80 mg trenbolone acetate.
17338	REVALOR®-IS	10 ds	Slow release increases weight gain and improves feed efficiency in steers. Contains 16 mg estradiol and 80 mg trenbolone acetate.
17339	REVALOR®-S	10 ds	Improved rate of gain and feed efficiency in feedlot steers for up to 130 days. Contains 16 mg estradiol and 80 mg trenbolone acetate.
21216	REVALOR®-XH	10 ds	Improved feed efficiency and rate of gain in heifers only. Contains 20 mg estradiol and 200 mg trenbolone acetate.
11412	REVALOR®-XS	10 ds	Contains 40 mg estradiol and 200 mg trenbolone acetate. Slow release delivery system.

12019	REVALOR® NEEDLE	1 ct	Replacement needle for Revalor implanting gun (old-style gun).

Mastitis

AMOXI-MAST®

Narrow-spectrum product is an ideal choice for targeted therapy against the most important mastitis-causing pathogens in lactating dairy cattle. Supports responsible antibiotic use by using the minimum level of antibiotic treatment required to cure mastitis.

17128 **12 ct**

GO-DRY™ MASTITIS TREATMENT DRY COWS

For treating bovine mastitis in dry cows. Effective against udder infections caused by Strep agalactiae. Each syringe contains 100,000 units Penicillin G Procaine in sesame oil.

18883 **12 ct**

MASTI-CLEAR

Treats mastitis in lactating cows. This product is effective against udder infection caused by Strep agalactiae, Strep dysgalactiae and Strep uberis. Should be used promptly at the first signs of mastitis.

10431 **12 ct**

ORBENIN-DC™

Treats bacteria with the shortest required dry period – only 28 days.

17306 **12 ct**
27787 **144 ct**

QUARTERMASTER®

Reduces the frequency of existing infection and to prevent new infections with Staphylococcus aureus in dry cows.

10127 **12 ct**
18084 **144 ct**

SHUTOUT® TEAT SEALANT

Sterile, non-antibiotic, intramammary paste containing bismuth subnitrate for preventing new intramammary infections in dairy cattle throughout the dry period.

23770 **24 ct**
23769 **144 ct**

U-SEAL™ TEAT SEALANT

Prevents new intramammary infections throughout the dry period with a malleable, antibiotic-free barrier in the teat canal.

21986 **144 ct**

Thick wall cannula and brass or aluminum hub greatly reduces needle breakage. Needles have superior durability; precision-ground tips stay sharper longer for multiple injections without burring. Gauge stamped into brass hub and ISO color coded stickers allow easy gauge recognition.

Nutraceuticals

ANTI-DIARRHEAL

For oral use to relieve simple, non-infectious diarrhea in calves, foals, cattle and horses. Ingredients reduce water loss, absorb or bind harmful toxins and firm the stool. Relieves inflamed intestines by coating and soothing the lining.

12566 50 ct

BISMUSOL SUSPENSION

Palatable, oral liquid for controlling simple non-infectious diarrhea in cattle, horses, dogs and cats. Contains 1.75% bismuth subsalicylate. Do not administer with other products containing salicylate, such as aspirin.

13113 1 gal

KAOLIN PECTIN

A palatable oral suspension for use in controlling simple diarrhea in horses, cattle, dogs and cats. Helps prevent dehydration; absorbs and helps remove bacterial toxins from intestinal tract. Use after the first sign of diarrhea.

13385 1 gal

LAXCID BOLUS™

For oral use only in treating digestive disturbances in cattle requiring a mild laxative or an antacid. Helps support digestive health and soothes digestive upset. Formulated with highly absorbable ingredients in a bolus, delivering optimal internal dispersion rates.

12579 50 ct

PROBIOS® BOVINE ONE PASTE

Supports proper digestion in beef and dairy cattle, goats and sheep. Provides more than 10 million colony forming units per gram of four different strains of lactic acid bacteria that work to naturally facilitate digestion.

14716 300 g

PROBIOS® PASTE

Helps maintain normal microflora balance, natural immunity, performance and overall health in dairy, beef, swine, sheep, poultry and horses. Probios contains guaranteed levels of Enterococcus faecium, Lactobacillus acidophilus, Lactobacillus casei and Lactobacillus plantarum.

14717 60 g

PROBIOS® POWDER 180D

Helps maintain normal microflora balance, natural immunity, performance and overall health in cats, cattle, dogs, equine, goats, sheep and swine. Probios contains guaranteed levels of Enterococcus faecium, Lactobacillus acidophilus, Lactobacillus casei and Lactobacillus plantarum.

13989 25 lbs

PROBIOS® BOLUS

Helps maintain normal microflora balance, natural immunity, performance and overall health in cattle, goats and sheep. Probios contains guaranteed levels of Enterococcus faecium, Lactobacillus acidophilus, Lactobacillus casei and Lactobacillus plantarum.

14719 1/2 oz - 50 ct

PROBIOTIC PLUS PASTE

Stabilized source of lactic acid bacteria, yeast, vitamins and inulin in beef and dairy cattle, equine, goats and sheep. Feed during ration change, birth, weaning, shipping, weather changes and following antibiotics. Supports proper digestion.

22241 300 mL

TDN ROCKETS®

Stabilized source of lactic acid bacteria, yeast, vitamins and inulin in beef and dairy cattle, equine, goats and sheep. Feed during ration change, birth, weaning, shipping, weather changes and following antibiotics. Supports proper digestion.

14712 28 ct

14714 200 ct

Pest Control

CLEAN-UP™ II POUR-ON

Controls lice and flies on dairy and beef cattle and horses; prevents emergence of horn fly larvae. The only product available in the U.S. that kills lice at multiple stages with just one treatment. First insect growth regulator (IGR) pour-on for topical application.

30226	0.5 gal
22807	2.5 gal

PROZAP® BACKRUBBER & POUR-ON

Ready-to-use synergized insecticide to be applied directly or with the use of back rubbers to beef cattle, dairy cattle (lactating and non-lactating) and swine for the control of flies, mosquitoes, ticks and lice.

20392	2.5 gal
-------	---------

PROZAP® BACKRUBBER XTRA

Ready-to-use formula for use in beef and dairy cattle and swine. Contains permethrin (0.125%) to help repel flies, mosquitoes, ticks and lice.

22304	2.5 gal
-------	---------

ULTRA BOSS® POUR-ON

Controls lice, horn flies and face flies, horse flies, stable flies, mosquitoes, black flies and ticks in dairy cattle and beef cattle. Repeat treatment as needed but not more than every 2 weeks. Effective horn fly control for 8 weeks.

17437	1 qt
17436	1 gal
11407	Applicator - 1 ct

CYLENCE® ULTRA PEST CONTROL

Kills more than 60 pests in and around animal facilities and outbuildings. Available in spray and concentrate form.

23958	1 oz concentrate
11576	8 oz spray
11582	1 pint
11581	2.8 L

GRENADE® ER

Broad-spectrum premise insecticide for pest control in, on and around livestock buildings, structures and surroundings. Microencapsulated for long-lasting control of a wide variety of insects that plague surfaces. Provides 3 months of premise protection.

17227	8 oz
-------	------

PERMETHRIN 10% EC

Provides knockdown and broad-spectrum kill of darkling beetles, poultry lice, fowl mites, horn flies, house flies and face flies. Controls fleas, ticks, lice and mange mites on dairy and beef cattle, horses, sheep, goats, dogs, swine and poultry.

23988	8 oz	23991	32 oz
23989	16 oz	21936	1 gal

PROZAP® DY-FLY® AEROSOL

Instantly kills flying and crawling insects including flies, mosquitoes, gnats, moths, ants, hornets, wasps, spiders, roaches and others. Use as premise spray or directly on animals including cattle, swine and horses.

17498	25 oz
-------	-------

PROZAP® INSECTRIN® X CONCENTRATE 10%

Broad-spectrum insecticide that kills fast with residual action. Use on animal premises, lawns, ornamentals and livestock. Mix with water or mineral oil as a spray or cattle backrubber to control horn flies, face flies, horseflies, ticks and ear ticks.

10288	1 gal
-------	-------

PROZAP® LD-44Z INSECT FOGGER

Quickly kills flies, mosquitoes, wasps, gnats, lady Asian beetles, roaches and spiders, plus 19 other flying and crawling insects in barns, milk rooms, parlors, stables, kennels and other buildings. For use with beef, dairy, equine, swine, poultry, sheep and goats.

19734	25 oz
-------	-------

DAIRY BOMB 55

Use to control insects on cattle, horses and swine. Kills house flies, horn flies, stable flies, horse flies, face flies, deer flies, gnats, mosquitoes, small flying moths, Asian beetles, roaches, waterbugs, sowbugs, spiders, centipedes, ants, crickets, wasps and hornets.

22108	25 oz
-------	-------

DAIRY BOMB 55Z

Kills and repels stable flies, horse flies, face flies, deer flies, house flies, mosquitoes and gnats. For use on beef and dairy cattle, horses, hogs, chickens and other livestock. Quick killing pyrethrin controls crawling and flying insects.

21420	25 oz
-------	-------

PROZAP LD-44Z FLY BOMB

Quickly kills flies, mosquitoes, wasps, gnats, lady Asian beetles, roaches and spiders, plus 19 other insects. For use in barns, milk rooms, parlors, stables, kennels and other buildings. For use on animals as a fogger or indoor/outdoor application.

12716 20 oz

PROZAP® CT-75 DAIRY

Controls house flies, horn flies, stable flies, gnats, mosquitoes and small flying moths. Can be used as a fogger in milk parlors, milk rooms, barns, food processing areas and stored product areas. Can be used around and on dairy cattle.

12715 26 oz

PROZAP® DAIRY CATTLE SPRAY

Ready-to-use fly spray for use on lactating and non-lactating dairy cattle that controls flies, mosquitoes, gnats and lice.

12731 26 oz

AGITA® 10 WG 2.2 FLY BAIT

Used for house fly control in animal housing for beef, dairy, poultry and swine. With its novel, potent active ingredient, Agita 10 WG kills quickly and provides a long-lasting residual.

21394 2.2 lbs

QUICKBAYT® FLY BAIT

Controls flies in and around livestock facilities. Use indoors or outdoors as scatter bait, in bait stations or paint-on. Can be applied to virtually any surface. For premise use only.

11579 350 g

11578 5 lbs

11580 35 lbs

COSEQUIN® DS MAX CHEWABLE TABS

Helps support mobility for dogs. Available in tasty chewable tablets. Safe, effective and bioavailable.

34039 110 ct

COSEQUIN® DS PRO MINIS

Specially formulated and designed for dogs under 25 lbs. Trademarked ingredients of Glucosamine and Sodium Chondroitin Sulfate, along with MSM to help maintain your dog's cartilage and connective tissue. Contains Boswellia for additional joint health support.

34116 45 ct

COSEQUIN® DS+SOFTCHEW MAX

Combination of ingredients helps maintain cartilage and connective tissue in dogs. Soft chews contains omega-3 fatty acids to help support skin and coat health.

34115 60 ct

CANINE SPECTRA & FELINE FOCUS VACCINES

Easy to use USDA-approved, single-dose, multi-protection vaccines. Help keep pets protected from serious viral and bacterial diseases. *Select products can only be sold to veterinarians in MN and NY.*

Poultry

MEALWORM FRENZY® TREATS HAPPY HEN™

These 100% all-natural, dried mealworms have more protein than live mealworms and don't need refrigeration. These treats can be fed to chickens 2 weeks old or older, sugar gliders, hedgehogs and wild birds.

21648 30 oz

STRIKE III NATURAL PELLETS

Veterinary formulated and antibiotic-free to support digestive health and genetic potential for poultry of all classes. Contains pumpkin seed, oregano and garlic for a taste birds love. No egg or food withdrawal.

30613 1 lb

VITELECT POULTRY

Daily supplement of essential vitamins and electrolytes to help animals stay hydrated and healthy. Water-soluble supplement is easy to mix.

30601 100 g

Reproduction

CHORULON® 10,000 IU

Indicated for intramuscular use in cows for the treatment of nymphomania (frequent or constant heat) due to cystic ovaries.

11405 50 mL - 5 ct

ESTRUMATE®

Prostaglandin that improves reproductive performance in lactating dairy cows, beef cows and replacement beef and dairy heifers. Approved for use with FERTAGYL® (gonadorelin) to synchronize estrous cycles.

17210 20 mL - 10 ds

17211 100 mL - 50 ds

FERTAGYL®

Improves reproductive efficiency by synchronizing estrous cycles and treating cystic ovaries in dairy cattle. Use with ESTRUMATE® (cloprostenol injection) to synchronize estrous cycles in lactating dairy cows. Use with cloprostenol sodium to synchronize estrous cycles in beef cows.

11421 20 mL - 10 ds

12695 100 mL - 50 ds

Supplements

BO-SE® MYOSEL B

Emulsion of selenium-tocopherol for preventing and treating white muscle disease Selenium-Tocopherol Deficiency syndrome in calves.

17140 100 mL

MULTIMIN® 90

Injectable, aqueous supplemental source of zinc, copper, selenium and manganese.

13093 100 mL

13094 500 mL

MU-SE®

Emulsion of selenium-tocopherol for preventing and treating Selenium-Tocopherol Deficiency syndrome in weanling calves and breeding beef cattle.

17277 100 mL

VETA-K1 VITAMIN K1

Yellow, sterile, aqueous colloidal solution of Vitamin K1, with a pH of 5.0-7.0, for use in beef and dairy cattle, cats, dogs, goats, horses, sheep and swine. Possesses the same type and degree of activity as naturally-occurring Vitamin K.

13301 100 mL

VITAMIN A D INJECT

Supplemental nutritive source of Vitamins A and D in cattle to enhance rate of gain. Vitamin D is essential for normal bone formation in young and adult animals and helps prevent eye infections.

13110 250 mL

VITAMIN B STRONG HI-LEVEL B COMPLEX

For use as a supplemental source of B Complex Vitamins in cattle, swine and sheep when animals have been on a low protein or mineral deficient diet.

13111 250 mL

13112 500 mL

VITAMIN B12 INJ 3000MCG

For use in managing Vitamin B12 deficiencies associated with cobalt deficiency, inadequate intake or intestinal malabsorption in cattle, horses, sheep and swine.

12929 250 mL

VITAMIN E®-A+D

Clear, sterile, non-aqueous solution of supplemental Vitamins E, A and D3 compounded with ethyl alcohol and benzyl alcohol (preservative) in an emulsifiable base.

13297 250 mL

**ASPIRIN BOLUS**

Reduces fever and relieves minor muscular aches and joint pains in cattle and horses. Helps lower body temperature and doesn't harm the heart. Readily absorbed for quick relief. Antipyretic properties lower body temperature and keep animals more content.

12572	240 g - 50 ct
13251	480 g - 50 ct

**DEXAMETHASONE 2MG VT**

Synthetic analogue of prednisolone with potent anti-inflammatory therapeutic action and diversified hormonal and metabolic effects. Primarily for treating bovine ketosis and as an anti-inflammatory agent in bovine and equine.

13091	100 mL
-------	--------

**BANAMINE® TRANSDERMAL POUR-ON**

FDA-approved pour-on for pain and fever in cattle. Patented delivery eliminates the need for IV administration. Works quickly and easy to apply.

21239	100 mL
21240	250 mL
21241	1 L

**BANAMINE®**

Non-steroidal anti-inflammatory drug (NSAID) approved for horses with inflammation and pain associated with musculoskeletal injuries. Quickly controls inflammatory responses with an onset of activity within 2 hrs of administration. Recommended for alleviating visceral pain associated with colic in horses.

17134	100 mL
17135	250 mL

**FLUNIXIN® MEGLUMINE INJ**

Controls pyrexia associated with BRD in cattle. Relieves inflammation and pain associated with musculoskeletal disorders and visceral pain associated with colic in the horse. Potent, non-narcotic, nonsteroidal analgesic agent with anti-inflammatory and antipyretic activity in cattle and horses.

12926	100 mL
12927	250 mL

**ALCOHOL 70% ISOPROPYL**

Topical antiseptic and sanitizer used to decrease germs in minor cuts and scrapes. Also helps relieve minor muscular aches.

13117	1 gal
-------	-------

**POVIDONE IODINE SCRUB**

Germicidal cleanser for pre-operative and post-operative skin washing and a shampoo for bacterial and fungal skin infections in animals. Used routinely, it also helps prevent infection in cuts, scratches, abrasions and burns. Non-staining to skin, hair and natural fabrics.

13122	1 gal
-------	-------

Armor's Choice

16613	60 mL ST	16607	6 mL LL

SYRINGE

Virtually unbreakable nylon feeding syringes are equipped with either a threaded or luer lock feeding nozzle. Dose markings etched in black for long-lasting visibility.

14081	10 mL
14082	20 mL
14083	30 mL

Topicals

IODINE 7%

Contains 7% iodine.

13383	1 gal
16697	15 gal

TRIIODINE-7®

For topical application on the skin to disinfect superficial wounds, cuts, abrasions, insect bites and minor bruises in cattle, sheep, horses, dogs and swine. More stable than 7% iodine. Provides liquid bandaging properties. Humectants are added.

13388	16 oz
12727	1 gal

VETERICYN® PLUS PINK EYE SPRAY

Specially formulated for irritated eyes showing signs of pink eye and to help relieve burning, stinging, itchy, watery eyes. Non-toxic, safe for use around mouth, nose, ears and eyes on all animal species and all life stages.

12995	16 oz
-------	-------

VETERICYN® SUPER 7 ULTRA NAVEL DIP

For umbilical cord dry-out for a variety of animal species including, but not limited to, cattle, swine, sheep, horses and goats. Formulated with ingredients that are safe for animals. Dyed solution for rapid identification.

17446	16 oz
-------	-------

Autogenous Vaccines

CLOSTRIDIUM TYPE A*

Vaccinates against infection with Clostridium Type A. Clostridium perfringens is a ubiquitous gram-positive spore-forming bacteria found in the soil, manure, and feed. It initiates a range of diseases in animals and humans, mediated by the toxins it produces.

27956	100 mL - 50 ds
27955	100 mL - 50 ds

MYCO MORAXELLA BOVIS PINKEYE*

Vaccinate against three strains of pinkeye: Moraxella bovis, Moraxella bovoculi and Mycoplasma bovoculi.

23234	100 mL - 50 ds
24513	100 mL - 50 ds

* = Autogenous vaccines can be formulated specifically for the distinct bacteria found on your farm or ranch. NOTE: All autogenous vaccines require a Veterinary Client Patient Relationship (VCPR) with an Armor Vet or can be purchased by a licensed veterinarian after state approval. Call 800.255.1181 to discuss if this is an option for you.

RESPIRATORY*

Vaccinate against three strains of pneumonia: Mycoplasma bovis, Bibersteinia trehalosi, and Histophilus somni. There are no commercially available vaccines against Bibersteinia. The inclusion of Histophilus provides even broader coverage. When combined with a Mannheimia and Pasteurella vaccine, the respiratory vaccine offers the maximum vaccination possible against bacterial pneumonia.

23601	100 mL - 50 ds
24514	100 mL - 50 ds

SALMONELLA*

Vaccinates against four serotypes of Salmonella enterica: Salmonella Cerro, Salmonella Heidelberg, Salmonella Dublin and Salmonella Typhimurium. There are no commercially available vaccines against Salmonella Cerro, Salmonella Heidelberg and Salmonella Typhimurium. The inclusion of Salmonella Dublin provides even broader coverage.

26911	100 mL - 50 ds
26915	100 mL - 50 ds

**BOVILIS® 20/20 VISION® 7 WITH SPUR®**

Comprehensive vaccination that protects against blackleg, pinkeye and other concerning diseases. Contains proprietary adjuvant resulting in fewer reactions and reduced stress on cattle post-vaccination.

13405	20 mL - 10 ds
13401	100 mL - 50 ds

**BOVILIS® NASALGEN® 3**

Protects healthy beef and dairy cattle 1 week of age or older against IBR, BRSV and P13. Administer by intranasal route.

23933	2 mL - 1 ds
23934	20 mL - 10 ds
23932	100 mL - 50 ds

**BOVILIS® NASALGEN® 3-PMH**

Protects beef and dairy cattle against critical BRD-causing pathogens, with no risk of injection site reactions. First and only intranasal BRD vaccine protecting against IBR, BRSV, PI3, Pasteurella multocida and Mannheimia haemolytica.

24849	25 ct - 1 ds
24850	2 mL - 10 ds
24851	2 mL - 50 ds

**BOVILIS® CAVALRY® 9**

For vaccinating healthy cattle 3 months of age or older against Clostridium chauvoei, Cl. septicum, Cl. novyi Type B, Cl. haemolyticum, Cl. sordellii, Cl. tetani and Cl. perfringens Types C and D.

17167	20 mL - 10 ds
17166	100 mL - 50 ds

**BOVILIS® CORONAVIRUS**

Intranasal vaccine effective for healthy calves against enteric disease caused by bovine coronavirus.

20067	25 x 1 ds tray
20120	20 mL - 10 ds
20062	100 mL - 50 ds

**BOVILIS® ONCE PMH® IN**

Intranasal vaccine for healthy cattle 1 week of age or older against Mannheimia haemolytica and Pasteurella multocida.

12704	25 x 1 ds tray
10547	20 mL - 10 ds
10456	100 mL - 50 ds

**BOVILIS® COVEXIN® 8**

Effective vaccination for healthy cattle and sheep against disease caused by Clostridium chauvoei, C. septicum, C. novyi Type B, C. haemolyticum (known also as C. novyi Type D), C. tetani and C. perfringens Types C and D.

17182	50 mL - 10 ds
17181	250 mL - 50 ds

**BOVILIS® ONCE PMH® SQ**

Vaccine for healthy cattle 1 week of age or older against Mannheimia haemolytica and Pasteurella multocida. Administer by SQ route.

13426	20 mL - 10 ds
13427	100 mL - 50 ds

**BOVILIS® GUARDIAN®**

Scours vaccine protects against the four major pathogens: Rotavirus Types G6 and G10, Coronavirus Types 1 and 3, Clostridium perfringens Types C and D and E. coli Type K99. Flexible dosing schedule and long-lasting activity. Patented water and oil adjuvant.

17228	20 mL - 10 ds
17229	100 mL - 50 ds

**BOVILIS® PILIGUARD® PINKEYE 1 TRIVALENT**

For use in healthy cattle to control pinkeye associated with infection by Moraxella bovis. Seven-way clostridial combination eliminates the need for a second injection. Offers a more specific immune response with lower-reactivity as compared to whole-cell antigen vaccines.

17316	100 mL - 50 ds
-------	----------------

**BOVILIS® J-5**

Core-antigen vaccine that reduces mastitis due to E. coli – with the lowest level of endotoxins to minimize potential side effects. No negative effect on milk production.

15977	250 mL - 50 ds
-------	----------------

**BOVILIS® VISION® 7 SOMNUS WITH SPUR®**

Helps protect healthy cattle against blackleg (chauvoei), malignant edema (septicum), black disease (novyi), gas gangrene (sordellii) enterotoxemia & enteritis (perfringens Types C and D); as well as respiratory disease caused by Haemophilus somnus.

13404	20 mL - 10 ds
13399	100 mL - 50 ds
34098	500 mL - 250 ds

Contact your Armor sales rep
for pricing and ordering info.

BOVILIS® VISION® 7 WITH SPUR®

Aids in the prevention of blackleg (chauvoei), malignant edema (septicum), black disease (novyi), gas gangrene (sordellii), enterotoxemia (overeating) and enteritis caused by perfringens Types C and D in healthy cattle and sheep.

13410	20 mL - 10 ds
13411	100 mL - 50 ds
31377	500 mL - 250 ds

BOVILIS® VISION® 8 SOMNUS WITH SPUR®

For use in healthy cattle and sheep as a pinkeye vaccine. Prevents disease caused by blackleg, malignant edema, sord, red water, black disease and enterotoxemia. Powered by SPUR® adjuvant to ensure a uniform solution that stays in suspension.

34099	20 mL - 10 ds
13400	100 mL - 50 ds

BOVILIS® VISION® 8 WITH SPUR®

Offers 8-way protection for healthy cattle and sheep in protecting against blackleg, malignant edema, black disease, gas gangrene, red water or bacillary hemoglobinuria, overeating and enteritis caused by perfringens Types C and D. Powered by SPUR adjuvant to ensure a uniform solution that stays in suspension.

31376	20 mL - 10 ds
13414	100 mL - 50 ds

BOVILIS® VISION® CD-T WITH SPUR®

For use in healthy cattle and sheep to prevent enterotoxemia associated with Clostridium perfringens Types C and D and tetanus caused by Clostridium tetani.

13398	100 mL - 50 ds
-------	----------------

BOVILIS® VISTA® 5 L5 SQ

For use in healthy cattle over 6 months to prevent respiratory disease and abortion due to IBR; respiratory disease and fetal infection, including persistently infected calves due to BVD Types 1 and 2, BRSV and PI3; and reproductive disease caused by Campylobacter fetus and leptos.

13420	10 mL - 5 ds
13422	100 mL - 50 ds

BOVILIS® VISTA® 5 SQ

For use in healthy cattle over 3 months to prevent respiratory disease and abortion due to IBR; respiratory disease and fetal infection, including persistently infected calves due to BVD Types 1 and 2, BRSV and PI3.

13419	100 mL - 50 ds
-------	----------------

BOVILIS® VISTA® 5 VL5 SQ

Use on healthy cows and heifers prior to breeding as an aid in the reduction of abortion due to IBR; respiratory disease and fetal infection, including persistently infected calves due to BVD Types 1 and 2, BRSV and PI3; reproductive disease caused by Campylobacter fetus and leptos.

13423	20 mL - 10 ds
31373	100 mL - 50 ds

BOVILIS® VISTA® BVD

For the vaccination of healthy cattle, 3 months of age or older, against respiratory disease and fetal infection, including persistently infected calves due to BVD Types 1 and 2.

24925	10 ds
-------	-------

BOVILIS® VISTA® ONCE SQ

Intended for healthy cattle, 3 months of age or older, to prevent IBR, BVD Types 1 and 2, BRSV, PI3, Mannheimia Haemolytica and Pasteurella multocida.

13424	20 mL - 10 ds
13425	100 mL - 50 ds

FUSOGARD®

Footrot vaccination containing Fusobacterium necrophorum bacterin designed specifically for cattle. Has broad administration window for vaccination during breeding soundness exams and turnout.

12338	100 mL - 50 ds
-------	----------------

LEPTO SHIELD 5

For preventing leptos canicola, grippotyphosa, hardjo, ictero-haemorrhagiae and pomona. Protects against five strains of leptos in cattle and swine.

13126	100 mL - 50 ds
-------	----------------

MASTER GUARD® 10 HB

Provides immunity for at least 196 days against BRSV, PI3, leptos and hardjo-bovis. Can be given to cows and heifers at any stage of gestation that are 5 months of age or older.

13258	30 mL - 10 ds
13257	75 mL - 25 ds

**NASALGEN® IP**

Vaccination for IBR and PI3 viruses. Provides rapid onset protection. Stimulates production of antibodies at the site where infectious pathogens enter the respiratory system — the mucosal lining of the nasal cavity.

17278	20 mL - 10 ds
17279	100 mL - 50 ds

**TITANIUM® 5+L5 HB**

Prevents IBR, BVD, PI3, BRSV, leptospira borgpetersenii serovar hardjo-bovis, leptospira canicola, leptospira grippotyphosa, leptospira hardjo, leptospira icterohaemorrhagiae and leptospira pomona.

13255	20 mL - 10 ds
13256	100 mL - 50 ds

**PINKEYE SHIELD® XT4**

A single dose annually protects herds against the leading bacterial cause of pinkeye, Moraxella bovis, all season long.

12328	20 mL - 10 ds
12329	100 mL - 50 ds

**VAXXON® SRP® KLEBSIELLA VACCINE**

Proactive USDA-licensed vaccine used in the reduction of mastitis due to coliform Klebsiella pneumonia bacteria. Based on siderophore receptor and porin (SRP) technology.

24639	100 mL - 50 ds
-------	----------------

**REPROSTAR® L5 HB**

Protects against hardjo-bovis and five strains of leptospira.

12352	100 mL - 50 ds
-------	----------------

**SCOUR BOS® 4**

Effective for the vaccination of healthy pregnant cattle to provide passive immunity in calves against disease caused by bovine rotavirus, bovine coronavirus, Clostridium perfringens Type C and K99 pilated E. coli.

12323	20 mL - 10 ds
13121	100 mL - 50 ds

**SCOUR BOS® 9**

Effective for the vaccination of healthy pregnant cattle to provide passive immunity in calves against disease caused by bovine rotavirus, bovine coronavirus, Clostridium perfringens Type C and K99 pilated E. coli.

13120	20 mL - 10 ds
12325	100 mL - 50 ds

**TITANIUM® 5**

For use in healthy cattle to aid in the prevention of disease caused by IBR, BVD Types 1 and 2, PI3 and BRSV.

13253	20 mL - 10 ds

WHY ARMOR ANIMAL HEALTH?

You work long hours - from sunup to sundown - to make your business successful. Our roots started with providing quality service and a fair price to our local dairy and beef farmers. Over time, our business has expanded to help other business (such as hoof trimmers, retail stores and veterinarians) so that they may offer the same quality service and fair prices to their own customers.

We want to be the trusted partner that you know you can rely upon. Whether it has to do with on-farm animal health challenges, record management, product alternatives or even eye-catching retail store displays, our team is available to help you find the best solution that works for you and your business.

DETECTING

challenges that you may face day to day.

DEFENDING

and leveraging your strengths through a partnership.

DELIVERING

on the promises that will help you accomplish your goals.
